EDUCATION

Sep.2012-Current	**Beijing University of Posts & telecommunications (BUPT)**, Beijing, China Master of Engineering, Electronics and Communication Engineering GPA: 80/100
Sep.2008-Jul.2012	**Wuhan University of Technology (WHUT)**, Wuhan, China Bachelor of Engineering, Electronics Science and Technology GPA: 88/100

WORK EXPERIENCE

Sep.2013-Current	**Graduate Research Assistant**, Beijing Key Lab of Network System Architecture and Convergence, BUPT, Beijing, China. I work on the area of resource allocation in multiuser OFDM systems and heterogenous networks, and I author four international conference papers (EI) and one paper (SCEI & EI).
May 2013-Sep.2013	**Android R&D Intern**, Beijing Novel-TV Media Technology Co., Ltd, Beijing. I have participated in the R&D of a on-line video interactive system. I was responsible independently for the R&D of the Android client, which contains three major functions: user login management, user camera selection management and video capture.
Oct.2012-May 2013	**Android R&D Assistant**, Beijing Key Lab of Network System Architecture and Convergence, BUPT, Beijing. I have participated in the research and development (R&D) of a video conference system, which supports video conference between PC users and Android users. I was responsible for the development of the user interface for the Android client.
Aug.2012-Oct.2012	**Graduate Research Assistant**, Beijing Key Lab of Network System Architecture and Convergence, BUPT, Beijing, China. I did research in the area of intelligent computation algorithm, such as PSO algorithm, genetic algorithm and Q-learning algorithm.
